LoadForge - Comparison Report

Name: S09 comparacao funcional local

Repetitions per strategy: 3

Conditions fingerprint:
0170fad32edb395b0ebbeafc3ddb2890fd2689aecdba38ca5b4a264833ce6022

Strategy results (throughput rps / P95 ms / error rate):

FIXED: 31.5842 / 32.0 / 0.0

RULES: 31.54377 / 32.0 / 0.0

AI_HYBRID: 31.61537 / 32.0 / 0.0

Descriptive comparison generated from equivalent repeated executions

Positive throughput deltas favor AI_HYBRID; negative latency and error deltas favor AI_HYBRID

Dispersion is reported and no statistical significance or production generalization is implied

WARNING: AI_HYBRID includes fallback or unverified windows; differences cannot be attributed exclusively to AI inference

WARNING: a single model version was not verified across AI_HYBRID runs.
